Product Description

Oregon Power Equipment 6500W Portable Generator 30794

The Oregon 6500W Extended-Duty Portable Generator is built powerful and tough to provide the continuous power that keeps more household comforts on line during an extended power outage. Readily powers household lights, electronics and small appliances like a microwave or refrigerator, power tools and larger appliances like a deep freezer or sump pump, and large mechanicals like a furnace or well pump. Folding transport handle and wheel kit included.

- 389cc Briggs & Stratton® 1575 Series PowerBuilt™ OHV gas engine with electric start
 - Oversized 7 gal. fuel tank for up to 9 hours of continuous operation at 50% load
 - (4) 120V, 20A GFCI outlets
 - (1) 120V/240V, 30A locking outlet
-
